To Whom It May Concern:

We have had the pleasure of working with IMEC for the past several years. Most importantly, IMEC is particularly skilled at effectively managing the unique aspects of interacting with the medical community and individual physician offices. IMEC knows the importance of addressing details in this context and I have no doubt that this is major reason for the efficiency and adeptness with which they accomplish their tasks.

Everyone at IMEC has always been responsive and sincerely helpful no matter the situation. It is gratifying in these difficult times to work with a business which takes such pride in its services and strives to serve its clients' interests with such zeal and enthusiasm.

We thank IMEC for their fine services over the past and look forward to a continuing prosperous relationship with IMEC in the coming years.

Very truly yours,

DANIEL B. SHAPIRO, Esq.
